So Say the Amalgamated Men on the Eve of the Big Convention.

WILL THE MANUFACTURERS SIGN?

Strikes Promised if They Don't, Though Proceedings Are Sub-Rosa,

WHY PRESIDENT WEIHE IS RETIRING

The Wage Committee of the Amalgamated Association completed their work at 7 o'clock last evening, and the Secretary was instructed to put the report in shape for presentation at the convention, which assembles to-day. He was busily engaged on the report last evening; but, although there will be a number of changes, there will not be a material change in the scale or the base. It was decided to submit a change of base in the scale to the convention; but the scale, as it was was last year, or as it is at present, is the same, \$5 50 for boiling on a 2-cent bar-iron card. A number of changes were made in the extras: but none of them can be construed as an advance in wages. In fact many of the clauses in the agreement, that were objectionable to the manufacturers, have been eliminated, and others have been con-

siderably modified.

The members of the committee do not want the scale made public until it has been considered and adopted by the delegates to the convention. Some changes may then be made; but it is safe to say that no reduction or advance will be agreed to or accepted by the

Amalgamated Association. One of the delegates said: "We will ask for a continuance of the present scale; some of the extras may be cut out; some may be added; but we will fight for the scale, and not do a stroke of work until our terms have been granted. We will not deal with any Manufacturers' Committee this year; but any firm that refuses to sign our scale will have to keep their mill closed until they do sign." A prominent member of the Wage Commit-

tee was seen last night, who said they had com-pleted their work, but that the members had all pleted their work, but that the members had all given a piedge not to divalge anything that had been done until the convention had acted upon the report. He admitted, however, that no changes of great importance had been made in the scale. The differences between the roughns and catchers occupied a portion of the time, and it is believed that they will be better paid in the future.

Two members of last year's Conference Committee met yesterday afternoon. One was from the iron workers and the other was a manufacturer. They

SHOOK HANDS VERY CORDIALLY, as they had not met for a year, and the convercoming year. Neither of them seemed to care

how it went, and when a representative of this paper spoke to them the manufacturer said: "We have not made up our minds yet what we will do." The worker said: "We have not asked them to do anything, but will ask that the present scale be continued, and I believe it will be signed before many days after it is presented. Some of the firm may refuse to sign, and a strike will be the result. Our men are determined to be the result. Our men are determined to stick for a just scale, and they will have a fat

stick for a just scale, and they will have a fat treasury to assist them, if necessary.

Some of the mills are slacking up in antici-pation of trouble, but the men are not worry-ing about it. They believe that the scale will be signed and that everything will move along very smoothly during the year. Some of the mills may be closed for a month or two, but the workers are not anxious to work during the hot months.

workers are not auxious to work during the hot months.

One of the delegates to the convention, who stands very close to President Weille, asked him yesterday what he intended to do when he retired from the Presidency. He replied that he intended to go back into the mill and boil iron, as he did before he accepted the position of President. He may go into business in a year or two, but will stick to his trade for a while.

HE HAD BEEN CRITICISED. When asked why he wanted to retire from a Presidency a friend of Mr. Welhe said: verely criti cised by some of the members of the organiza-tion. This has evidently worried him, although there was no occasion for it. He always did his duty and none of the members, I believe, if it were left to a vote, would find any fault with any of his actions. He is the best President the Amalgamated Association ever had and we are very sorry that we will have to lose him."

Almost all the delegates who will attend the Amalgamated Association Convention arrived yesterday and last night, and are stopping at the Central, St. Charles and Home Hotels. There will be about 200 delegates compared with 175 last year, showing an increase in the There will be about 200 delegates compared with 175 last year, showing an increase in the men bership of the organization of fully 5,000.

After the delegates have been seated the convention will get down to work, and the first business will be the report of the Wage Committee. As soon as it is adopted it will be printed and copies sent to each manufacturer.

The Allegheny High School Committee met last night and appointed a committee to ar range for the dedicatory exercises of the new building in September. Messra. Dodds and Woodburn were delegated to purchase material for the school while in Europe, Minor matters relative to fences, pavements and furniture were also decided on.

A MILK SHAKE,

John A. Martin is Arrested for Sunday Sales and Quickly Released Again. and Quickly Released Again.

John. A Martin was again the central figure of a big excitement on Smithfield street yesterday afternoon, and the commotion attracted a crowd of nearly 1,200 people. Constable Carlisie was the cause of the trouble. He went into Martin's store about 3:30 o'clock, and, stepping up to Mr. Martin, read a warrant for his arrest, accusing him of selling milk on Sunday, May 19.

his arrest, accusing him of selling milk on Sun-day, May 18.

When he had flushed reading the paper he told Martin to consider himself under arrest and to come along. The milkman declined, however, and a wordy war ensued between the two men, Martin telling young Carlisie what he thought of him, and also that he was already under hall for a hearing before Magistrate Mc-Kenna, on the charge of selling on that Sun-day.

kenna, on the charge of sening on that Sunday.

Young Carlisle became alarmed at the excited manner and athletic proportions of his prisoner, and beckoned to Officer James Ketter to come and assist in arresting Martin. The officer, however, declined to interfere, and while Carlisle was talking to him Mr. Martin walked out and started down Strawberry alley. Carlisle ran after him and the crowd after Carlisle, and just as the latter stepped up to Martin again Constable McClelland, of Magistras McKenna's office, interfered, teiling Carlisle that Martin was already under ball for selling on the 19th of May, and could not be charged twice with that offense. Carlisle vanished as soon as McClelland came up, and Martin returned to his store unmolested, after which the crowd dispersed.

A NARROW ESCAPE.

Three Men Carried Through a Sewer by

Rushing Water.

John Moran, Patrick Welsh and James More, three laborers engaged in cleaning out the sewer at the Center avenue pond, had a narrow escape yesterday afternoon. The men had a line of hose in the sewer squirting out had a line of hose in the sewer squirting out the dirt that had stopped up the mouth of the sewer, when the water and dirt gave way. The men ran to the mouth of the sewer, which is 100 feet long but before they had reached the end the water had caught and carried them out of the sewer and down over the hill about 20 feet. When they got to their feet they found they were not seriously hurt, beyond a few bruises and scratches. The pumps which were stationed above the sewer opening gave way and slipped down into the pond, stopping the sewer up again. There is very little water in the pond at present.

The Brickmakers' Assembly. Local Assembly 2,946, K. of L., composed of brickmakers, held a special meeting at K. of L. hall last night. There was a large attendance at the meeting last night and almost all of the delinquent members fell into line. This assem-

bly will soon be as strong as it ever was.

On Sunday night a deaf mute named Isaial Hoyt was arrested on the Southside and locked up in the Twenty-eighth ward station. "When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me fo try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."
